MEMORANDUM FOR: Director of Security
General Counsel

STAT

FROM:

Chief, Legislation Division
Office of Legislative Liaison

SUBJECT: Department of Justice Views on S. 2470

1. Attached for your review and comment are the Department of Justice's (DOJ) views on S. 2470, a bill which provides a screening procedure for those individuals having unescorted access to nuclear power facilities. The bill provides that every person licensed or in the process of being licensed to operate a nuclear utilization facility must be fingerprinted before he or she is provided unescorted access to this facility. This fingerprinting will allow any relevant criminal history information to be considered before providing access to the individual. In the attached draft letter prepared by DOJ, DOJ has noted several revisions that they would like to see included in the bill.

2. I would appreciate your reviewing DOJ's suggested revisions and providing your comments to me on the attached letter by next Tuesday, 3 July. Your cooperation in this matter is much appreciated.
